

**FOR IMMEDIATE RELEASE****G.W. Lisk Company Acquires Tico Electronics**

CLIFTON SPRINGS, New York, December 1, 2022 – G.W. Lisk Company, a global leader in engineered solutions for aerospace, defense, on highway, oil and gas and mobile industrial hydraulics, announced today the acquisition of Tico Electronics, a Costa Rican manufacturer specializing in complex assemblies including wire windings, cable harnesses, and other electro-mechanical solutions.

Tico's history of focusing on difficult assemblies that require both machine and highly skilled labor will support Lisk's continued desire to meet the needs of their customers across a variety of industries. "The complementary nature of capability and employee talent will enhance our opportunities to serve our customers" said, G.W. Lisk Company President and CEO, Ed Maier "Tico Electronics will continue to build on Lisk's strong reputation of high quality and high performance products".

Tico Electronics will continue to operate independently as a division of G.W. Lisk Company. Members of the Tico Electronics executive team will work alongside G.W. Lisk Company to realize the benefits of this business combination. Tico Electronics' Managing Director, Marko Mileta, commented "Tico Electronics is excited to join G.W. Lisk. We believe our strengths are very complementary to G.W. Lisk's product, technology and customer base".
